

DO NOT change wisconsin's No Call law. Leave it the way it is! I don't want telemarketers to be able to contact me just because they think they should be able to. The consumer's rights should be more important than the telemarketer's perceived rights. I don't care if they think they should have access to me and call any hour that they so desire. I don't think so!! DO NOT CHANGE THE LAW!!!!
